

Product Data Sheet

GCC 068

Clear, Thick Grease Barrier Coating

Galaxy Chemical Corporation GCC 068 is a clear, thick, water resistant barrier coating used on any area that needs to be protected from paint overspray such as baffles, robots and other paint booth surfaces. It will also trap any airborne particles to keep dirt down. GCC-068 easily adheres to vertical surfaces and can be rolled on or brushed. The viscosity of the material allows it to be easily removed.

PROPERTIES

- | | |
|-------------------|---|
| 1. Appearance | Clear grease |
| 2. Density @ 25°C | 0.85 – 0.92 g/cc at 25°C (77°F) |
| 3. Viscosity | 3-30mm ² /s at 100°C (212°F) |

APPLICATION

Galaxy Chemical Corporation GCC 068 can be manually applied by brush or roller. Apply a coating thickness appropriate for the area being covered. A uniform application will insure more consistent performance and minimize cost.

STORAGE AND HANDLING

Galaxy Chemical Corporation GCC 068 should be stored in a cool dry location at room temperature. Rubber, butyl, neoprene or plastic gloves should be worn when using this material to avoid skin contact. Safety glasses with side shields are recommended. Other protective equipment is not generally required under normal working conditions.
