

Product Data Sheet

GCC 076

Gold Grease Barrier Coating

Galaxy Chemical Corporation GCC 076 is a barrier coating used on any area that needs to be protected from paint overspray. It will also trap any airborne particles to keep dirt down. GCC-076 easily adheres to vertical surfaces and can be rolled on or brushed. The viscosity of the material allows it to be easily removed. The product is effective and can work up to 180 degrees F.

PROPERTIES

- | | |
|-------------------|------------------------|
| 1. Appearance | Gold/amber grease |
| 2. Density @ 25°C | 0.915 g/cc |
| 3. VOC | 0 lbs/gal(theoretical) |

APPLICATION

Galaxy Chemical Corporation GCC 076 can be sprayed or manually applied by brush. A uniform application will insure more consistent performance. The amount of material applied is minimal as only a thin film is required.

Air Spray:

BINKS #18 or 62 gun, 63-ass fluid nozzle, 63-PB air nozzle GRACO #217-938
Gun, S-900-070 fluid nozzle, 946 air nozzle

Airless Spray:

BINKS B-4 Pump – 32:1 ratio, 9-1840 tip insert B-5 Pump –
29:1 ratio, 9-1840 tip insert
Graco President Pump – 30:1 ratio, 163-619 tip insert Bulldog Pump –
30:1 ratio, 163-619 tip insert

STORAGE AND HANDLING

Galaxy Chemical Corporation GCC 076 should be stored in a cool dry location at room temperature.
